

Centralized Device Management

Unify management and control of thousands of mobile and desktop devices in the secure, browser-based Meraki dashboard. Drive your organization's mobility initiatives by seamlessly onboarding new devices and automating application of security policies.

Centralized Cloud Management

The Meraki dashboard enables secure monitoring and management of all of your mobile devices from anywhere in the world.

Network Settings Deployment

Define and deploy network settings such as wireless connectivity, security, and remote VPN access to all your managed devices at once.

Device Location

Find lost or stolen devices with integrated real-time location data via GPS, WiFi, or IP address. Define geofence areas and automatically apply or remove settings based on location.

App Deployment

Easy deployment and maintenance of free, paid, or Enterprise mobile apps. For Macs and PCs, deploy MSI and PKG files right from the dashboard.

Remote Troubleshooting

Automatically monitor devices 24x7 via the cloud. Start remote desktop, take a screenshot, and reboot or shutdown Macs and PCs.

Device & Data Restrictions

Protect devices and their data, control their usage with fine-grained policies, and restrict access to features such as the app store, gaming, and content.

Rapid Provisioning

Download the app from the Apple or Google App Stores to enroll a device, or streamline adoption by using Systems Manager Sentry to ensure mobile devices are enrolled in MDM before joining your wireless network.

Network Integration

Tie Systems Manager policies to your wireless, switch, and security appliance networks. Use Systems Manager certificates to securely connect users to WiFi.

Managed Services Framework and Approach

Behind any customer success story is a strong managed service framework. Eclipse's eCloud combines industry leading knowledge and dynamic processes and procedures, reinforced with the best practises in the Information Technology Infrastructure Library (ITIL). With the combination of our result driven process and industry best practices, our framework acts as the foundation for all of our solutions.

Our TAC – Technical Assistance Centre is the very core of our Managed Services. Eclipse's TAC Team supports all of our services, 24 hours a day, and 7 days a week. When incidents occur, our team is on standby waiting to help at every moment. Rest comfortably knowing that experts are actively managing your critical assets.
